New construction semi-detached villas with optional pool

These impressive homes are in 2 and 3 bedroom formats according to the needs of each one. The 3-bedroom model has a large master bedroom on the 1st floor with an attached bathroom and access to a private terrace.

Each house has the possibility of having its own private pool that will be the delight of the whole family as well as having a parking space within the plot for greater security. But perhaps the most original detail of these homes are the projecting roofs that offer a large shaded terrace and that shelter that same area from the elements. This installation makes these homes stand out from their surroundings.

The Villas are located right next to the urban center of the municipality of Benijófar, which means that all services, shops and hotels are just a walk away. And if the beach is what you are looking for, the best beaches in Alicante, those of Guardamar, are just 10 minutes away by car with more than 11 km of white sand dunes and crystal clear waters. Both the city of Alicante and the airport are less than half an hour away so there is a great variety of culture, entertainment and gastronomy very close.
